Den größten Anteil am CO₂-Footprint unserer Leuchten nimmt das Material ein. Deswegen wählen wir bei allen Artikeln unseres GERDA GREEN Sortiments das Material besonders verantwortungsbewusst aus.

1

GERDA GREEN

Die Entscheidung welches Material nachhaltiger als ein anderes ist, ist oft nicht einfach. So ist z.B. Keramik in der Herstellung sehr energieintensiv, aber dafür auch sehr langlebig. Bei Leuchten mit Glasschirmen, führen Keramikfassungen allerdings oft zu Glasbruch, deswegen verwenden wir dort Fassungen aus Kunststoff-Recyclat, dessen CO₂-Fussabdruck um ca. $\frac{2}{3}$ besser ist als der primären Kunststoffs.

Glas wiederum kann unendlich oft ohne Qualitätsverlust recycelt werden. Das macht Glas zu einem sehr nachhaltigen Werkstoff.

Darüber hinaus gleichen wir die verbleibenden Emissionen aller GERDA GREEN Artikel komplett durch die Beteiligung an Zertifikaten des deutschen Moor-Projektes MoorFutures® aus.

Dadurch sind alle GERDA GREEN Leuchten zu 100 % klimaneutralisiert.

The largest proportion of a product's carbon footprint is accounted for by its materials. That's why when we select materials for all items of our GERDA GREEN range we do so very conscious of our responsibility.

Deciding which material is more sustainable than another is often not easy. In the case of ceramic sockets, for instance, a great deal of energy is used in their production. On the other hand, however, they are very long-lasting. When it comes to light fittings with glass shades, ceramic sockets often lead to the glass breaking. For such products we therefore use synthetic sockets made of recycled material, which has a carbon footprint two-thirds better than primary plastics.

Glass in turn can be repeatedly recycled without any loss of quality. That makes it a very sustainable material.

In addition to this, we completely offset these products' few remaining emissions through participation in certificates issued by the German MoorFutures® project.

As a result, all GERDA GREEN light fittings have been made 100% climate neutral.

mehr infos

*Wir gleichen die restlichen Emissionen
aller unserer GERDA GREEN Leuchten
durch den entsprechenden Erwerb von
Zertifikaten des Klimaschutzprojektes
MoorFutures® in Schleswig-Holstein aus.*

1

GERDA GREEN

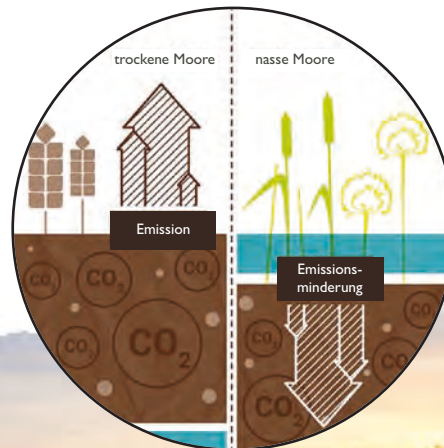

MOORE sind die besseren Wälder

Unterschätzte ÖKOSYSTEME

MOORS are the better forests

Under-appreciated ECO-SYSTEMS

Moore und Feuchtgebiete speichern mehr Kohlenstoffdioxid als jedes andere Ökosystem der Welt. Ihre enorme CO₂-Speicherkapazität übersteigt die von Ozeanen um das 500-fache. Im Vergleich zu Wäldern sind sie fünfmal so effizient.

Moors and wetlands store more carbon dioxide than any other eco-system in the world. Their enormous CO₂ storage capacity is 500 times greater than that of oceans. Compared to forests, they are five times as efficient.

We support the MoorFutures® climate protection project in Schleswig-Holstein and offset the remaining emissions of all our GERDA GREEN light fitting ranges through the corresponding purchase of climate protection certificates.

Light fittings
for the
bathroom

Leuchten
für's
Badezimmer

IP44

Spritzwassergeschützt
Splash proof

Drei relevante Zonen sind zu beachten

Three relevant zones are to be observed

Zone 1

Im Bereich der Badewanne und/oder Dusche sind nur Leuchten mit Niedervoltspannung (12 V) und hohem Schutzgrad (IP44 / IP65 und höher) zu verwenden. Nur durch einen Fachmann installieren lassen.

Near to any bath and/or shower use only light fittings with a low voltage (12 V) and a high level of protection (IP44/IP65 or higher)! To be installed by electricians only!

Zone 2

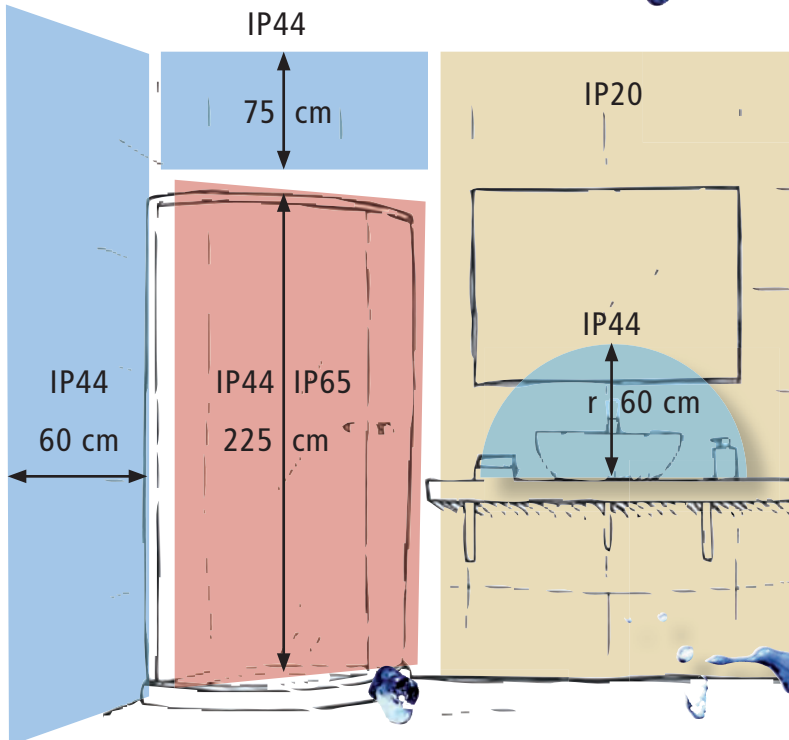

Oberhalb der Badewanne und/oder Dusche bzw. daneben und im Abstand von 60 cm oberhalb des Waschbeckens können alle unsere Bad-Leuchten mit dem Schutzgrad IP44 montiert werden. Hier können sowohl Niedervolt- als auch Hochvoltleuchten eingesetzt werden.

Above a bath and/or shower and/or next to either and at a distance of 60 cm above any washbasin any of our bathroom light fittings with a protection level of IP44 can be fitted. Here you can use both low voltage and high voltage fittings.

Zone 3

Hier sind in Deutschland sämtliche Leuchten ab einem Schutzgrad von IP20 einsetzbar. Jedoch sind Wasserdampf und Spritzwasser, die auf die Leuchte einwirken können, zu vermeiden. Wir empfehlen auch hier Leuchten der Schutzklasse IP44.

In Germany all light fittings with a protection level of IP20 and above can be used here. However, any steam or splashes that could affect the fittings should be avoided. Here too we recommend light fittings of protection-class IP44.

14 Edison Kiosk

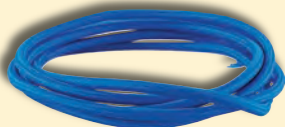

Edison Kiosk
Edison Kiosk

72095-70
L 500 B 1250 H 2400

A photograph of a restaurant interior with a rustic, industrial aesthetic. The space features dark wooden tables and chairs, a bar area with hanging glassware, and a wall with vertical wood slats. Warm, ambient lighting is provided by Edison-style bulbs. A large yellow circle is overlaid on the left side of the image, containing the text "Edison Kiosk" in a black script font.

Maße

Alle Maße in diesem Katalog sind in mm angegeben, falls nicht ausdrücklich anders erwähnt.

Lumen / Watt

Zu jedem LED-Artikel werden in diesem Katalog sowohl die Lumen- und Watt-Werte der reinen LED-Brennstelle angegeben, als auch die entsprechenden Output-Werte der gesamten Leuchte. Durch Gehäuseart, Abstrahlungsverhalten und unterschiedliche Abdeckungsmaterialien können sich diese Werte teils erheblich unterscheiden. Gerade beim Vergleich verschiedener Leuchten ist es wichtig, zu wissen um welche Watt- bzw. Lumenangabe es sich handelt.

Lumen / Watt

For every LED product this catalogue shows both the lumen value and wattage of the LED unit itself and the corresponding output values of the complete light fitting. Type of casing, emission patterns and differing covering materials can result in sometimes appreciable variances in these values. Especially when comparing different light fittings it is important to know which wattage / lumen figures you are dealing with.

Measurements

All measurements in this catalogue are in millimetres unless expressly stated otherwise.

Informations

Mistakes, printing errors and model changes in identical or improved design excepted.

GUARANTEE

The light fittings on which LeuchtenDirekt GmbH grants the 5-year guarantee are marked in **bold** in the table of contents, while the product numbers of the products on which no guarantee beyond the usual 2 years is granted are printed in *italics*.

Garantieerklärung Warranty declaration

LeuchtenDirekt GmbH, Olakenweg 36, 59457 Werl

Sehr geehrte Kundin,
sehr geehrter Kunde,

die Leuchte, die Sie erworben haben, wurde mit Sorgfalt nach den geltenden europäischen Vorschriften (EN 60598) produziert, geprüft und verpackt.

Die LeuchtenDirekt GmbH gewährt allen Verbrauchern und Unternehmern, die eine LeuchtenDirekt-Leuchte unmittelbar von der LeuchtenDirekt GmbH erworben haben, sowie allen Verbrauchern, die eine solche Leuchte von einem Unternehmer erworben haben, der seinerseits die Leuchte unmittelbar von der LeuchtenDirekt GmbH erworben hat (berechtigter Unternehmer),

- auf alle Artikel deren Verpackung mit dem 5-Jahre-Garantie-Siegel gekennzeichnet ist, eine kostenlose Herstellergarantie von fünf Jahren, und zwar sowohl auf die Leuchte als auch auf die Leuchtmittel, sofern die Leuchtmittel nicht austauschbar und mit der Leuchte fest verbunden sind, – nachfolgend Leuchten –

Inhalt der Garantie:

1. Garantieschutz

Die LeuchtenDirekt GmbH garantiert dem Verbraucher und/oder dem Unternehmer, dass die Leuchten über die in ihren Leistungs-/Artikelbeschreibungen zugesicherten Eigenschaften verfügen und frei von Konstruktionsfehlern, Material- und Herstellungsmängeln sind. Maßgeblich sind der Stand der Technik und die wissenschaftlichen Erkenntnisse zum Zeitpunkt der Herstellung des Produkts. Die Garantie erstreckt sich auf eine einwandfreie Funktion der Leuchten, der eingebauten elektronischen Komponenten sowie die Verwendung mangelfreier Werkstoffe, insbesondere ihrer Oberflächen aus Glas, Metall und/oder Kunststoff.

Die Garantie der Leuchtfunktion wird dadurch begrenzt, dass die Lichtleistung der LED-Leuchtmittel mit ihrer Lebensdauer nachlässt (gebrauchsbedingter Verschleiß).

Als Lebensdauer eines LED-Leuchtmittels wird der Zeitraum im Dauerbetrieb bezeichnet, in der die Leuchtkraft auf 70% des Ausgangswertes seit der Inbetriebnahme sinkt.

LeuchtenDirekt garantiert LED-Leuchtmittel, die mindestens den Wert L70/B10 aufweisen. L70 bedeutet, dass die Lichtausbeute am Ende der Lebensdauer im Mittel nur auf 70% der Ausgangsleistung gesunken ist – B10, dass nur 10% der LEDs nicht mehr funktionieren.

2. Garantiebedingungen

Die Garantiezusage gilt unter folgenden Bedingungen:

- dem sachgemäßen Gebrauch der LeuchtenDirekt-Leuchte gemäß ihrer Bedienungs- und Gebrauchsanleitung;
- der Wartung und Pflege der Leuchte gemäß der Gebrauchsanleitung;
- dem Anbau und der Installation gemäß der Bedienungs- und Gebrauchsanleitung und der Installationsvorschriften;
- der Einhaltung der Grenzwerte für Versorgungsspannung und Umgebungseinwirkung gemäß der Bedienungs- und Gebrauchsanleitung und Installationsvorschriften;
- der Vermeidung von chemischen und physikalischen Einwirkungen;
- dem Unterlassen von eigenmächtig vorgenommenen An- und Umbauten.

Von der Garantie ausgenommen sind generell LeuchtenDirekt-Leuchten, die als Zweitwahl-Artikel oder Muster erworben worden sind. Ein abgewerkelter Garantiefall führt nicht zu einer neuen Garantie von fünf Jahren, die von der ursprünglichen Garantiezeit verbliebene Restgarantiezeit gilt auch für das Ersatzprodukt.

3. Garantieleistungen

Die Garantie umfasst im Falle eines Defekts oder Mangels der Leuchte nach billigem Ermessen der LeuchtenDirekt GmbH eine kostenfreie Reparatur oder eine kostenfreie Ersatzteillieferung oder Ersatzlieferung des gleichartigen oder entsprechenden LeuchtenDirekt-Produkts. Die LeuchtenDirekt GmbH behält sich vor, die Garantieleistung dem technischen Fortschritt gemäß anzupassen. Kosten für Montage, Demontage und den Transport sowie Spesen, Porto und dergleichen sind von der Garantie ausgenommen. Auch Folgeschäden, Betriebsausfallschäden und Gewinnverluste, die auf ein defektes oder mangelhaftes LeuchtenDirekt Produkt zurückzuführen sind, werden nicht von der Garantiezusage erfasst.

4. Garantieausschluss und Garantienachweis

Der Anspruch auf Garantieleistungen besteht nur, wenn innerhalb der Garantiezeit, spätestens jedoch bis zum Ende des dem Garantiezeitpunkt folgenden Werktages, das fehlerhafte Produkt mit entsprechendem Kassenbono oder der mit Datum versehenen Rechnung der LeuchtenDirekt GmbH oder dem berechtigten Unternehmer vorgelegt wird. Die entsprechenden Kaufbelege sind daher bis zum Ablauf der Garantiezeit aufzubewahren.

5. Garantiebeginn

Die Garantiezeit beträgt 5 Jahre. Sie beginnt mit dem Kaufdatum, welches auf dem Kaufbeleg ausgewiesen ist, und endet nach 5 Jahren an diesem Datum. Eine Verlängerung der Garantie ist ausgeschlossen. Sie verlängert sich insbesondere nicht durch einen Garantiefall. Auch beginnt durch ein Ersatzprodukt keine neue Garantie. Die auf den berechtigten Unternehmer entfallenden Garantiezeiten werden nicht auf die des Verbrauchers angerechnet.

6. Andere Ansprüche

Die Garantie der LeuchtenDirekt GmbH schränkt die gesetzlichen Rechte der Verbraucher, insbesondere die Rechte aus § 437 BGB (Nacherfüllung, Rücktritt oder Minderung, Schadensersatz) bei Mangelhaftigkeit der Leuchten nicht ein; die gesetzlichen Rechte bestehen unabhängig von der Leuchtengarantie. Auch die Haftung nach dem Produkthaftungsgesetz wird durch die Garantie nicht eingeschränkt.

7. Geltendmachung der Garantie

Um die Garantie auszuüben, muss der Garantiefall unverzüglich gemeldet und das Produkt mit einer Kopie des Kaufbelegs entsprechend Ziffer 4 dieser Erklärung eingesendet werden. Die Meldung hat schriftlich gegenüber der:

LeuchtenDirekt GmbH
Olakenweg 36
59457 Werl

zu erfolgen. Das defekte oder mangelhafte Produkt ist ebenfalls, nach Erhalt des Retourenscheins, an die aufgeführte Adresse zu senden.

LeuchtenDirekt GmbH grants all users and businesses that have procured a luminaire directly from LeuchtenDirekt GmbH and also to all users who have procured such a luminaire from a dealer, who, in turn, has procured the luminaire directly from LeuchtenDirekt GmbH (authorized dealer)

- if not otherwise stated, the legal warranty for a period of 2 years
- for all luminaires that have the 5 year warranty seal affixed on the packaging, a free-of-cost manufacturer's warranty for a period of 5 years covering the luminaire as well as the lamp, however, only if the lamp cannot be replaced and is permanently fixed to the luminaire, – the following luminaires –

Substance of the warranty:

1. Warranty protection

LeuchtenDirekt GmbH warrants the user and/or business that its luminaires possess the properties that have been assured in the performance and item descriptions and that the luminaires are free of design faults, material and manufacturing defects. The state of the art and the scientific findings at the time of the manufacture of the product shall be decisive.

The warranty extends to the faultless functioning of the luminaires, the built-in electronic components and the use of faultless materials, in particular their surfaces made of glass, metal and/or plastic. The guarantee of the lighting function is limited by the fact that the light output of the LED lamp decreases with its service life (wear and tear due to use).

The service life of an LED light source is defined as the period of time in which it is in continuous operation and during which the luminosity drops to 70% of the output value which it had at commissioning.

LeuchtenDirekt warrants that the LED lamps shall have, at least, the value of L70/B10. L70 means that 70% of the initial luminosity is assured after the expiry of the service life of the LEDs. – B10 means that only 10% of the LEDs will undershoot this value after the end of the service life of the LEDs.

2. Terms of the warranty

The warranty is valid under the following conditions:

- The proper use of the LeuchtenDirekt luminaire in accordance with its instructions for operation and use
- Maintenance and care of the luminaire in accordance with the instructions for use
- The mounting and installation in accordance with the instructions for operation and use and the installation instructions
- Complying with the limit values for the supply voltage and the environmental effects in accordance with the instructions for operation and use as well as the installation instructions
- Avoidance chemical and physical adverse effects
- The omission of unauthorized additions and conversions carried out on your own.

What is excluded from the warranty are all items that have been procured from LeuchtenDirekt, which are second-choice articles or samples. A settled warranty claim does not lead to a new warranty of five years. The remaining warranty period from the original warranty period shall also apply to the replacement product.

3. Warranty services

In the event of a defect or deficiency in the luminaire, the warranty shall cover, at the discretion of LeuchtenDirekt GmbH, a free of charge repair or a free of charge replacement delivery or a replacement delivery of a similar or corresponding LeuchtenDirekt product. LeuchtenDirekt GmbH reserves the right to adapt the warranty service to technical progress.

Costs for assembly, disassembly and transport, as well as expenses, postage and the like are excluded from the warranty. Also consequential damages, loss of business and loss of profit, which are attributable to a defective or defective LeuchtenDirekt product, are not covered by the assured warranty.

4. Warranty exclusion and warranty certificate

Warranty claims are only valid if, within the warranty period, but no later than the end of the working day following the end of the warranty period, the defective product is presented accompanied by a receipt or a dated invoice from LeuchtenDirekt GmbH or the authorized dealer.

The corresponding purchase receipts must therefore be kept until the end of the warranty period.

5. Commencement of warranty

For each luminaire, whose packaging carries the 5-year warranty seal, the warranty period is 5 years. It begins on the date of purchase, which is stated on the proof of purchase and ends 5 years after that date. An extension of the warranty is excluded. In particular, it shall not be extended by a warranty claim. Also, no new warranty begins through the provision of a replacement product. The warranty periods that are applicable to the authorized agent shall not be added on to that of the end user

6. Other claims

The warranty by LeuchtenDirekt GmbH does not restrict the statutory rights of consumers, in particular, the rights arising from § 437 of the BGB (German Civil Code) (supplementary performance, withdrawal or reduction, compensation due to damage) in the event of a defect in the luminaire, these statutory rights exist independently of the warranty for the luminaire. Liability under the Product Liability Act is also not limited by the guarantee

7. Enforcement of the warranty

In order to enforce the warranty, the warranty case must be reported immediately and the product must be returned along with a copy of the proof of purchase in accordance with Section 4 of this declaration. The notification must be made in writing to:

LeuchtenDirekt GmbH
Olakenweg 36
59457 Werl

The defective or faulty product must also be sent to the address given above after receipt of the return form.
